

GREENBELT TRAIL SYSTEM

BLUE TRAIL:

Provides an easy/moderate level hike, that is 12.3 miles one way. This trail ascends from Staten Island Boulevard to one of the highest points on the eastern coast (between Maine and Florida).

WHITE TRAIL:

Provides an easy/moderate hike, and is 7.6 miles one way. Its southern end connects to Great Kills Park (Gateway National Recreation Area).

RED TRAIL:

Provides an easy/moderate, closed circuit 4 mile hike in the middle of the Greenbelt. This loop trail begins and ends at Historic Richmond Town and St. Patrick's Place off Richmond Road.

YELLOW TRAIL:

This moderate/difficult trail is 8 miles one way, and brings hikers through Reeds Basket Willow Swamp. It ascends Todt Hill and then parallels the Blue Trail. Moses' Mountain, is located off the Yellow Trail.

NATURE CENTER TRAIL:

The 1-mile Nature Center Trail begins at the footbridge called "Mitchell Crossing" to the left of the Nature Center. The level terrain is suitable for novice hikers. After the trail turns eastward there is a native fern garden stretching out under a canopy of tall tulip, beech and birch trees. In spring Canada mayflower, trout lilies and wild violets proliferate. This loop trail ends at the opposite side of the Nature Center from where it began.

TRAIL NAVIGATION SYMBOLS

Square trail markers which correspond with trail colors on this map, can be found on trees along the trail system. The following navigation symbols can also be found:

- Trail Turns Right
- Trail Turns Left
- Trail Begins
- Trail Ends

MAP KEY (Color markers will be found along the trails.)
